The metastatic colorectal cancer: patient first
OBJECTIVES

Patients’ well being is the result of a patient-centered therapeutic approach that takes into consideration patients’ needs and expectations, beyond clinical data.

The meeting will open with a specific session dedicated to the approach to the patient and to the importance of communication about clinical benefits and therapeutic choices. This session aims to offer the oncologists cause for reflection on how the current knowledge influences metastatic colorectal cancer patients’ management.

Another topic the Meeting will deal with is the importance of the multidisciplinary team. This topic will be analyzed through the parallelism with an orchestra in which the leader has to coordinate, organize and suggest the best solutions to his team, aiming to patients’ well being.

Furthermore, an updated overview will be dedicated to metastatic colorectal cancer treatments with the participation of the most important national and international key opinion leaders in the following areas:

- Molecular characterization of the disease
- Surgical approach
- Therapeutic approach.

ADRESSED TO

The meeting is addressed to oncologists specialized in colorectal cancer
Friday, 6th March

13.00 Registration and welcome

14.00 Introduction
  Stefano Cascinu, Roberto Labianca

APPROACH TO THE PATIENT: LISTENING, COMMUNICATING, SHARING
Chairman: Alberto Sobrero

14.15 The clinical benefit
  Alberto Sobrero

14.40 How the patient understands the clinical benefit
  Mario Clerico

15.05 How to communicate the therapeutic choice to the patient
  Fabrizio Artioli

15.30 Comment of a patient

15.40 The importance of the multidisciplinary team
  • The need for a multidisciplinary approach
    Vittorina Zagonel
  • The experience in a different context
    Gianna Fratta

16.10 Discussion

16.30 Coffee break

MOLECULAR CHARACTERIZATION OF DISEASE: PRESENT AND FUTURE
Chairmen: Fortunato Ciardiello, Salvatore Siena

16.50 Hereditary tumors
  Piersandrono Tagliaferri

17.10 Molecular biology and impact on individual outcomes
  Heinz-Josef Lenz

17.40 Innovative studies in mCRC
  Filippo de Braud

18.10 What AIOM and SIAPEC are doing to improve clinical practice
  Carmine Pinto

18.40 Take home messages
  Fortunato Ciardiello, Salvatore Siena

18.55 Adjourn
Saturday, 7th March

NEW HORIZONS IN SURGICAL APPROACH
Chairmen: Carlo Barone, Evaristo Maiello

8.30 How to define resectability and unresectability: which criteria?
Alberto Zaniboni

8.50 Patient pathway: from diagnosis to surgical decision
Gianluca Masi

9.10 Indications and surgical techniques in liver metastases treatment
Felice Giuliani

9.30 Interventional radiology techniques and results
Luigi Solbiati

9.50 Take home messages
Carlo Barone, Evaristo Maiello

10.05 Coffee break

CURRENT NEWS IN THERAPEUTIC APPROACH OF mCRC
Chairmen: Francesco Di Costanzo, Roberto Labianca

10.30 Continuum of care in mCRC
Axel Grothey

11.10 TRIBE: does it change clinical practice?
Alfredo Falcone

11.30 CALGB (80405) and FIRE3: do they change clinical practice?
Stefano Cascinu

11.50 What to do in the elderly?
Gerardo Rosati

12.10 Matching guidelines: ESMO and AIOM
Roberto Labianca, Giordano D. Beretta

12.50 Round table
Treatment of mCRC: several choices for several countries
Chairman: Roberto Labianca
Participants: Jaafar Bennouna, Stefano Cascinu, Axel Grothey, Sebastian Stintzing

13.50 Take home messages
Francesco Di Costanzo, Roberto Labianca

14.00 Adjourn and final evaluation CME test
DIRECTORS

Roberto Labianca
Cancer Center
Ospedale Giovanni XXIII
Bergamo (I)

Stefano Cascinu
Clinica di Oncologia Medica
Ospedali Riuniti di Ancona
Università Politecnica delle Marche - Ancona (I)

CHAIRMEN AND SPEAKERS

Fabrizio Artioli
U.O. di Medicina Oncologica
Ospedali di Carpi e Mirandola
Azienda USL di Modena
Carpi, MO (I)

Carlo Barone
U.O.C. di Oncologia Medica
Policlinico Universitario A. Gemelli
Università Cattolica “Sacro Cuore”
Roma (I)

Mario Clerico
S.C. di Oncologia
Ospedale degli Infermi
Biella (I)

Jaafar Bennouna
Institut de Cancérologie de l’ouest
Nantes-Angers (F)

Filippo Guglielmo de Braud

Conservatorio di Musica
Foggia (I)
Based on Italian regulations, Accademia Nazionale di Medicina (provider n.31) will assign 9 CME credits to this activity (31-114370).

The meeting is addressed to physicians specialized in oncology, radiotherapy, internal medicine.

It will not be possible to give credits to physicians specialized in different fields.

The credit certification in subject to:
- attendance at the entire Meeting
- the completion of the meeting evaluation form
- the completion of the final questionnaire (at least 75% of correct answer).

We would like to remind to participants that only 1/3 of the CME Credits acquired during the years 2014-2016 can come from a sponsorship.

OFFICIAL LANGUAGE

The meeting will be held in Italian and English. Simultaneous translation will be provided just to foreign speakers.

REGISTRATION

The participation to the Meeting is free and is addressed to a limited number of participants. To register, please send:

- registration form duly filled out
- privacy statement and consent regarding personal information (back of the form)

to Accademia Nazionale di Medicina - Via M. Piaggio 17/6 - 16122 Genova fax 010 83794260
e-mail: segreteriacorsi@accmed.org

The registration will be confirmed by e-mail, please indicate your e-mail address on the registration form.
