DIGITAL EVENT

THINK HADROM

Discovering Hadrontherapy within Multidisciplinarity

Focus on the therapeutic management of Bone and Soft tissue sarcomas

Directors
Maria Rosaria Fiore, Ester Orlandi, Viviana Vitolo

22nd March 2024
h 12.45 - 16.00

4,5 CME credit
Focus on the therapeutic management of Bone and Soft tissue sarcomas

Objectives

The webinar is focused on the therapeutic management of Bone and Soft tissue sarcomas according to International Guidelines, highlighting the importance of the multidisciplinary approach.

A special accent is put on the use of particle therapy, on both protons and carbon ions which have gained significant interest due to their advantageous physical and radiobiologic properties compared to photon-based therapy.

Based on such unique properties, particle therapy may allow dose escalation to tumours while reducing radiation dose to adjacent normal tissues. Furthermore Carbon Ion RT (CIRT) based on the higher radiobiological effectiveness has emerged as a promising strategy for the treatment of a variety of malignancies including bone and soft tissue sarcomas with poor radiosensitivity.
### Focus on the therapeutic management of Bone and Soft tissue sarcomas

**Friday, March 22nd 2024**

Focus on the therapeutic management of Bone and Soft tissue sarcomas

Addressed to
Medical oncologists, radiation oncologists, radiologists, anesthesiologists, general surgeons, maxillo-facial surgeons, neurosurgeon, orthopaedic surgeons otolaryngologists, nuclear medicine physicians, neuroradiologists, neurologists, medical physicists, radiology technicians.

CME
Based on the in force regulations approved by the CNFC, Accademia Nazionale di Medicina (provider n. 31) will assign to the activity (31-407895): **4,5 CME credits**
Training objective: professional and technical content (knowledge and skills) specific to each profession, specialization and highly specialized activity. Rare disease.
The credit certification for the webinar is subject to:
• Professions/specializations should correspond to those which have been accredited for CME;
• Attendance at the 100% of the webinar live on the platform fad.accmed.org
• the completion of the Meeting evaluation online form;
• completion of the final test (at least 75% of correct answers). 5 attempts admitted.
The test and the meeting evaluation form must be completed within 3 days from the end of the event.

Registration
Participation to the webinars is free, places available are limited.
Registrations are only available at https://fad.accmed.org/course/info.php?id=1526 they will be accepted in the chronological order of arrival and will be confirmed by e-mail.
