Perspectives and **R**esearch **A**dvancemen**T**s in **O**ncology

PRATO
breast

PRATO | APRIL, 18-19 2024

COURSE DIRECTORS

Laura Biganzoli, Luca Malorni

OBJECTIVES

In recent years, the progress of scientific research in the study of breast tumours has led to the acquisition of multiple novelties in diagnostic, prognostic and therapeutic fields with profound repercussions on the approach to the patient. Looking ahead, the scenario will be enriched in the near future by further innovations that will certainly represent new opportunities for patients, but also new challenges for the oncology community that will have to manage an increasingly complex subject. This residential event benefits from the participation of a faculty of experts who, thanks to their recognized expertise and experience, will outline the state-of-the-art and future perspectives for the numerous topics covered while animating active discussion with all participants. The aim of the event is twofold: on the one hand, we want to offer an insight into the present by delving into the progress of clinical and translational research in the field of breast cancer; on the other we will try to anticipate future challenges by grasping new perspectives. The discussion will range from the controversial aspects of systemic treatment in early-stage disease, the needs of special populations and the evidence on the newest treatment strategies including antibody-drug conjugates and immune-therapy, to new perspectives in tumour genomics and the treatment of endocrine-resistant tumours.

ADDRESSED TO

Physicians, biologists, biomedical laboratory technicians, pharmacists, and nurses.

With the endorsement of:

- 13.00 *Registration and welcome lunch*
- 14.00 **Opening and welcome**
Laura Biganzoli, Luisa Fioretto, Maria Teresa Mechi
- 14.20 **ANGELO DI LEO LECTURE**
A critical review of the past, present and future “revolutions” in systemic therapy for breast cancer
Introduction: Laura Biganzoli
Speaker: Martine Piccart
- WHAT'S HOT FOR SYSTEMIC THERAPY OF EARLY BREAST CANCER**
Chairs: Rossana Berardi, Pierfranco Conte, Alessandra Fabi
- 14.50 **Keynote 522. Lesson learned and open questions**
Mario Giuliano
- 15.10 **CDK4/6 inhibitors in the adjuvant treatment of HR+HER2- tumors. Which one and to whom?**
Laura Biganzoli
- 15.30 **Are we ready for de-escalation in the treatment of HER2+ breast cancer?**
Valentina Guarneri
- 15.50 **Discussion**
- 16.10 *Coffee-break*
- UNMET NEEDS IN SPECIAL POPULATIONS**
Chairs: Francesco Perrone, Miriam Ricasoli
- 16.30 **Unmet needs in young patients with breast cancer**
Angela Toss
- 16.45 **BRCA testing in clinical practice**
Luca Livraghi
- 17.00 **Special needs in elderly patients**
Emanuela Risi
- 17.15 **Discussion**
- BREAST CANCER GENOMICS: STATE OF THE ART AND FUTURE APPLICATIONS**
Chairs: Silvia Bessi, Daniele Generali
- 17.35 **Current clinical use of genomic profiling in breast cancer**
Mario Giuliano
- 17.50 **Dissecting molecular landscape of metastatic breast cancer: the AURORA-EU initiative**
Matteo Benelli
- 18.05 **What's next for circulating biomarkers**
Gabriele Zoppoli
- 18.20 **Luminal MBC: let's talk about patient's stratification**
Luca Malorni
- 18.35 **Discussion**
- 18.50 *Adjourn*

- 09.00 **LECTURE**
Predicting response and toxicity in patients with cancer treated with antibody-drug conjugates
Introduction: Laura Biganzoli
Speaker: Giuseppe Curigliano
- TACKLING ENDOCRINE RESISTANCE IN 2024**
Chairs: Sabino De Placido, Francesca Martella, Ilenia Migliaccio
- 09.30 **Current treatment algorithm**
Grazia Arpino
- 09.45 **Mechanisms of resistance to CDK4/6 inhibitors**
Cristina Guarducci
- 10.00 **Tackling endocrine resistance in the clinic: new endocrine agents and combinations**
Carmen Criscitiello
- 10.15 **Discussion**
- 10.45 *Coffee break*
- ANTIBODY-DRUG CONJUGATES**
Chairs: Saverio Cinieri, Claudio Zamagni, Alberto Zambelli
- 11.10 **Current role of Antibody-drug conjugates in the treatment of metastatic breast cancer**
Alessandra Gennari
- 11.25 **New Antibody-drug conjugates at the horizon**
Michelino De Laurentiis
- 11.40 **Resistance to Antibody-drug conjugates: mechanisms and biomarkers**
Carmine De Angelis
- 11.55 **Managing Antibody-drug conjugates specific toxicity**
Erica Moretti
- 12.10 **Discussion**
- 12.40 *Light lunch*
- IMMUNOTHERAPY**
Chairs: Catia Angiolini, Carmelo Bengala
- 14.00 **Precision immunology in breast cancer**
Maria Vittoria Dieci
- 14.15 **Optimizing first-line therapy in triple negative breast cancer**
Fabio Puglisi
- 14.30 **New immunotherapies and combinations in breast cancer**
Giampaolo Bianchini
- 14.45 **Discussion**
- 15.15 **Take home messages**
Laura Biganzoli, Luca Malorni
- 15.30 *Adjourn*

CME

Based on the in force regulations approved by the CNFC, Accademia Nazionale di Medicina (provider n. 31) will assign to the activity CME (**31-409133**): **9 CME** credits.

Training objective: professional and technical content (knowledge and skills) specific to each profession, specialisation and highly specialised activity. Rare disease.

To obtain CME credits, participants must meet the following requirements:

1. Their declared profession/specialization must correspond to those accredited for CME;
2. They must attend at least 90% of the course;
3. They must complete the online meeting evaluation form;
4. They must complete the learning assessment test with at least 75% correct answers. Only one attempt is allowed.

The learning assessment test and meeting evaluation form must be submitted within three days of the event.

REGISTRATION

Participation in the course is free, places available are limited.

It is possible to register online at <https://fad.accmed.org/course/info.php?id=1522> by April 18.

Registration will be accepted in the chronological order of arrival and will be confirmed by e-mail.

Per ragioni organizzative si segnala che il meeting verrà svolto in lingua inglese il 18 aprile e in lingua italiana il 19 aprile.
